

Invitation for the next PTC/USER Montreal meeting that will be held
Thursday October 23rd, 2008 at
Holiday Inn Airport Montreal Hotel
(6500 Côte de Liesse, Montreal, H4T 1E3)
From 3:00pm to 9:30pm

The exhibitor room will be open from 3:00pm to 4:00pm and during lunchtime from 5:40pm to 6:40pm.

Arrive early and visit the exhibitors.
Take advantage of this opportunity to meet with other users.

Regarding the presentations, they will last from 4:00pm to 9:00pm. Bring a colleague because sometime there will be 2 presentations in same time in 2 different rooms.

We understand that it is not always easy for you to free your schedule and justify these meetings. We wanted to address this situation by offering **free 30-minute hands on Workshops** on Pro/ENGINEER Mechanica 4.0, assisted by a certified resource. Why settle with just a presentation when you can actually play with the software! These sessions will help you understand the new functionalities of this new compelling version and explain them to your team and management.

(Reservation **needed**.)

30-minute session from 3:00pm to 5:00pm, 4 users per session)

For those of you that need to stay in Montreal for the night, we've negotiated a special PTC/USER price for rooms at the Holiday Inn, \$102 plus taxes. (514-739-3391)

After the presentations and the door prizes a pay bar will be available for you around the pool in the atrium.

Once again, every user will get 1 or 2 gift at the reception. Don't forget the door prizes (something like **GPS System for car...**)

To register, you just have to send an email to:
lucrossignol@sympatico.ca

Agenda :

- 3:00 – 4:00 Exhibitor room is open
- 4:00 – 4:30 Meeting opening
- 4:30 – 5:00 Presentation Pat McGee (room 1)
Secrets of Mapkeys.
- 4:30 – 5:00 Presentation Ian Blackie (room 2)
ModelCHECK
- 5:10 – 5:40 Presentation Mike Kramer, Sigmaxim (room 1)
Fine-tuning Pro/E to positively impact company-wide initiatives: A Pro/E user's guide to embedding design practices for productivity and accuracy gains
- 5:10 – 5:40 Presentation Raymond Quintal, BRT-Solutions (room 2)
Windchill ProductPoint
- 5:40 – 6:40 **LUNCH**
- 6:45 – 7:15 Presentation Remy Palmisano, Instadesign (room 1)
Pro/ENGINEER Mechanica 4.0, Using top-down and idealizations to simplify and speed up assembly analysis and optimization
- 7:20 – 7:50 Presentation Tom Hagerty, CFdesign (room 1)
Cfdesign Upfront CFD for Pro/ENGINEER
Discover how to optimize your next product design for fluid flow and heat transfer performance – before physical testing. During this fast-paced demo we'll take you step-by-step through a parametric flow and thermal optimization project working with native Wildfire assemblies. Ideally suited for CFD first timers and occasional users, CFdesign v10 turbo charges innovation and profits with high-powered simulation tools packaged for no-nonsense engineers. If you're relying on a flow bench or thermal lab for design guidance this session is for you
- 7:50 – 8:00 **BREAK**
- 8:00 – 8:45 Keynote speaker Mr. Mark James, Adobe Systems
- 8:45 – 9:00 Door Prizes
- 9:00 – 10:30 Bar around the pool in the atrium

Top 6 Reasons to Attend the PTC/USER Montreal Event

- The PTC/USER Montreal Event is the **conference for the global PTC/USER community**, providing you with training, education, networking and top PTC solution providers that you won't find anywhere else.
- **Technical Education.** Learn best practices and tips & techniques from community experts as they present case studies and technical presentations.
- **ROI.** Learn how improvements in product development are tightly linked with a company's ability to achieve key business initiatives and hear how to deliver business value through process optimization.
- **Networking. Networking. Networking** Exchange ideas and experiences with your industry peers and learn how they are using PTC solutions today to solve the challenges their companies are facing.
- **Hands-On Training on Pro/ENGINEER®.** Take advantage of **free** instructor-led and self-paced training.
- **PTC Product Roadmaps.** See the latest enhancements to PTC solutions and gain insight into the PTC product roadmap

Regards,

A handwritten signature in black ink that reads "Luc Rossignol". The signature is written in a cursive style with a large, sweeping initial "L".
